Profile Summary

Experienced Web Developer with 1+ years, aiming to specialize in **React** and **Node.js** Full-stack development

Experience

Fishcons It Services

December 2022 – December 2023

Web Developer

New Delhi, India

- Developed and **maintained 8+ dynamic websites using PHP**, increasing client engagement by 30%.
- Integrated **RESTful APIs** to enhance functionality, **reducing server response time by 40%**
- Stay up-to-date with **emerging technologies** and industry trends to continuously improve development processes.
- Enhanced user experience** by designing responsive UIs, boosting mobile traffic by 35%
- Migrated legacy systems to modern PHP frameworks, **reducing maintenance costs by 20%**.

Projects

Job Portal Web Application | [GitHub](#) | *Node.js, Express.js, HTML, CSS, Bootstrap, JavaScript*

February 2025

- Developed a job portal web application with dynamic job listings and application features.
- Followed the MVC architecture for structured code organization and scalability.
- Implemented Node.js middlewares for authentication, error handling, and request logging.
- Designed a file-based or local storage system to manage job postings without a database.
- Used Express.js to handle backend routing and server-side logic efficiently.
- Implemented session management to maintain user login state and enhance user experience.

INVENTORY-MGMT | [GitHub](#) | *HTML, CSS, JavaScript, Node.js, Express*

February 2025

- Engineered a full-stack inventory management system leveraging Node.js and Express to handle server-side logic and request routing efficiently.
- Integrated session management using Express-session middleware, enabling secure user authentication and persistent state handling across requests.
- Implemented middleware functions in Express for structured request validation, error handling, and logging to enhance application maintainability.
- Designed a responsive and modular frontend using Bootstrap's grid system, components, and utility classes, ensuring cross-device compatibility.
- Utilized static asset serving and templating techniques to dynamically render inventory data within an optimized frontend structure.
- Optimized application performance by minimizing redundant operations, implementing structured routing, and maintaining a clean MVC-based architecture.

Crypto-Tracker App | [GitHub](#) | [View](#) | *HTML, CSS, JavaScript*

January 2025

- Integrated CoinGecko API to fetch real-time cryptocurrency data, including prices, market cap, and volume.
- Implemented Chart.js to visualize historical price trends with dynamic and interactive charts.
- Designed a responsive UI with HTML, CSS, and JavaScript for cross-device compatibility.
- Optimized API requests using efficient data fetching techniques to enhance performance.
- Utilized JavaScript ES6+ features like async/await, fetch API, and modular functions for better code structure.

Stock-Market-Analysis | [GitHub](#) | [View](#) | *HTML, CSS, JavaScript*

December 2024

- Integrated a stock market API to fetch real-time company profiles, financial metrics, and historical stock data.
- Implemented Chart.js to visualize stock trends, performance comparisons, and historical price movements dynamically.
- Optimized API requests using async/await and fetch API for efficient data retrieval and state management.
- Developed a responsive and interactive UI with HTML, CSS, and JavaScript, ensuring seamless cross-device usability.

Resume-Project | [GitHub](#) | [View](#) | *HTML, CSS, JavaScript*

November 2024

- Developed a personal portfolio/resume website using HTML, CSS, and JavaScript to showcase skills, experience, and projects.
- Designed a responsive UI with CSS media queries and flexbox/grid layout for seamless viewing on different devices.
- Implemented smooth scrolling and interactive animations using JavaScript and CSS transitions for enhanced user experience.
- Optimized performance by minimizing CSS and JavaScript files, improving page load speed.
- Ensured SEO optimization by structuring semantic HTML elements and adding meta tags for better search engine visibility.

Technical Skills

Programming Languages: PHP, HTML/CSS, JavaScript

Databases: MongoDB, Firebase, MySQL

Developer Tools: VS Code, Android Studio

Frameworks: Node.js, Express, GitHub, CodeIgniter,

Additional Skills: DSA, OOPS, linux and AWS/GCP

Soft Skills: Communication, teamwork

Education

Axis college (SGPA: 7.31)

2022 – 2024

MASTER OF COMPUTER APPLICATION

Kanpur, UttarPradesh

Trainings

Coding Ninjas

Feb 2023 – Feb 2024

Full Stack Web Development
